AFTERNOON DISPATCHES.

WASHINGTON.

McDowell's Successor—Grant and Rosecram The Jeannette—Only Lawyers to be Appointed Commissioners for Utah.

WASHINGTON, March 25th.—General McDowell is likely to be soon retired. Senator Miller some months ago prevailed on the President to delay action in his case. The struggle to succeed to his Major-Generalship is between Generals Crook and Terry and General Pope, who is the ranking brigadier. Grant is strongly in favor of Pope.

GRANT AND ROSECRANS.

Grant was asked this afternoon if he had anything to say concerning his alleged interview between him and Thos M. Nichol, in which he (Grant) is alleged to have spoken disparagingly of Rosecrans. Grant said in reply: "I do not know Nichol and don't remember to have ever seen him in my life, and I certainly would never have said to him such things. A great deal is attributed to me in that article

It is understood that the President, selecting five Commissioners for Utah Territory, will nominate only lawyers, believing that good lawyers will be required to properly explain the Territorial government. It is not likely that any one from Utah, Mormon or Gentile, will be appointed. The President has intimated that he will not appoint any one who applies, either directly or indirectly, for posi-

THE EL SOBRANTE CASE. Secretary Kirkwood has extended the time for the filing of any ap-plication for a re-hearing in the El Sobrante case until April 15th, upon

application of counsel. DORSEY AND BRADY.

It was agreed to postpone the further hearing of Dorsey and Brady until sixty were present. Friday next. Col. Ingersoll gave notice that he should also file a motion to quash the demurrer, as Hine and others ave done. Col. Bliss then asked for the arraignment of the parties indicted in the straw-bond case.

[Associated Press Dispatches.] Hantington Interviewed.

St. Louis, March 25 .- C. P. Huntington, in an interview regarding railroad affairs, said that there will be no change in the policy of the St. Louis & San Francisco railroad. The railroad will be extended as originally designed.
He stated that he intends building a railroad from Eagle Pass, Texas, to the City of Mexico, and believes it will be

And passes through a more productive country with population greater than any other. The Galveston, Harrisburg and San Antonio road will be placed in first-class condition, thoroughly ballasted and the present iron rails re-placed by steel rails. He will also have a line completed from San Francisco to New Orleans and Galveston about September. Mr. Huntington expressed the opinion that ownership in railroad means control, and that attempts to regulate freights by legislative action prepared in San Francisco. and are full will lead to disaster. He favors laws to prevent freight discrimination; said it was always his policy to make uniform rates, properly classified.

The Funeral to-be Private.

Boston, March 25.— The funeral services of the late Henry W. Long-fellow will be private at his home on Sunday. Public services will be held at Appleton Chapel, and the remains interred at Mount Auburn.

Nearly an Accident.

NEW YORK, March 25 .- The engine of the Sixth Avenue elevated road ran into the rear coach of a regular passenger train, at Courtland street station this morning. Two coaches careened and would have fallen to the street had it not been for the guard railway.

Another Petition.
WILKESBARRE, Pa., March 25.—A
petition for the pardon of Mason, containing five thousand names, was sent to the President to-day. One hundred dollars will be forwarded to Philadel-phia next week to be added to the ten cent subscription fund for Betty and the baby.

Found Guilty. DEADWOOD, March 24.—The jury in the Crow Dog case have returned a verdict of guilty.

Favorable Food News.

VICKSBURG, March 26.—All the flood news is favorable to-day. The water is receding rapidly, and planting will soon begin.

Nearly Destroyed by Fire.

RIVERSIDE, March 25.— The new Citrus Fair Pavilion narrowly escaped destruction by fire last evening. About 11 o'clock flames were discovered issu-ing from an old building twenty feet in the rear. It is believed to have been the work of an incendiary. Prompt assistance and the proximity of the irrigating ditch full of water saved the building with the rear cover-ing somewhat charred.

Desperate Fight with the Earps. TOMBSTONE, March 25.—An Epitaph eporter interviewed a reliable man just in from Burleigh Springs, eight miles south of this city. He stated deal is attributed to me in that article that I never said to any one or even thought. But some of the things I did say, but not to Nichol." Nichol says that he has proof that Grant did say just those things

miles south of this city. He stated that a desperate fight took place there last night between six men of the Earp party and nine cowboys, headed by the notorious Curly Bill, who killed Marshal White of Tombstone. The cowboys ambushed the Earps as they were approaching the spring and pour-ed a deadly fire into them, wounding one man slightly and killing a horse. The Earps returned the fire and then charged upon the cowboys, who inglo-riously ran, leaving Curly Bill dead upon the field.

Masonry in Arizona.

Tucson, March 25.—The dedication of the Masonic Hall of Tucson, lodge 263, yesterday was celebrated by all of our people. Rev. O. C. Wheeler, of San Francisco, was down on official business an I was induced to stay over and deliver the oration, which was given in the park and was listened to by a vast concourse of people. Representatives of five Arizona Masonic lodges were present. About one hundred and fifty were in line. The dedication ceremonics were performed in the hall, which is a fine building. After the dedication the representatives of all the Arizona lodges, saye the Aggesting of Present given in the park and was listened to lges, save the Aggattan of Prescott, held a convention and organized a Grand Lodge for the Territory, and severed their connection with the Grand Lodge of California. The constitution will be adopted to-day and officers elected. Last night the celebration closed with a Masonic ball and social gathering at which four hundred and

THE ILLUSTRATED "CALIFORNIAN."

The April number of this magazine opens with a beautifully illustrated article, entitled "Yachting in San Francisco Bay," by Mr. Chas. G. Yale. This article is from the popular, or nontechnical, standpoint, and will interest hundreds besides those who have an opportunity to indulge in the pastime of yachting. The engravings are the of promise for the successful development of pictorial wood-engraving upon the Pacific Coast.

The other articles in this number are

The other articles in this number are of equal interest. Prof. Le Conte contributes "The Higher Utilities of Science." Lucy U. McCann gives a sprightly account of how she built a cheap greenhouse, with an illustration of "the way it looked." James O'Meara, always a readable writer, relates how a Californian accomplished the only escape made from Fort Lafayette during the war. Wm. H. Rideing has an article on the "London Newspaper." Prof. H. B. Norton gives an account of a treaty formed under peculaccount of a treaty formed under peculiar circumstances between the Pawnees and Osages. Charles H. Shinn con-tributes a bit of poetical prose, entitled "California Aprils."

LOS ANGELES DAILY TIMES.

"The chief element in the prosperity of every State or nation is the economy of transportation of persons and prop erty. It is the most marked fact in the difference between civilization and barbarism." Such is the language of Horatio Seymour, of New York, while arguing for free tolls for boats, freight and passengers on the canals of his State. He is beyond doubt correct. And for him to give utterance to the sentiment in a State completely threaded by the rails in all directions is a circumstance of significance, and argues that the people are not getting from railroad management the advantages the great improvement of the country should give them. And it is this fact that turns the minds of the people back to the "slowcoach" canal, and in some instances to macadamised roads, And if New York, with all her facilities, has cause for complaint, what shall the people of But one dead lamb is there! There is no fireside, however watched and tended, But one dead lamb is there! There is no fireside, however defended, But one vacant chair! complaint, what shall the people of States say who are further removed from their market, and are entirely in the grasp of one corporation? We will not be comforted! the grasp of one corporation? We might instance California, where we have little relief from rivers and none from canals, and have a dominant corporation that is We see but dimly through the mists not content to run its own line, but governs the rates by the Isthmus route, thousands of miles away, and even holds a rod over every sailor that rounds the Horn!

Recent movements to head off the Atlantic and Pacific and Atchison and Topeka roads and prevent their making connection with the Pacific Coast as competitors for its business, naturally awaken interest in the freight question, and the people will share in the discussion and sympathize in the results of the New York agitation.

Such is our situation that we canno expect to participate profitably in the grain and wool trade of the world unless our freights are low enough to place us on an equality with those nearer our market. Hence rates be come of the most vital importance, and should receive the devout attention of all whose interests are involved.

The just completed road to New Orleans promises to be of great benefit to us, and it is earnestly hoped that rates over it for our products will be so low that all of our interests will be stimulated to produce to the utmost, and thus make a return of an ample business to reward the energy of the men who have reward the energy of the men who have provided the highway across the deserts and mountains that brings the East and Europe, comparatively speaking, to our very doors. It is a and as true as the sentiment quoted from Mr. Seymour, that the Central Pacific Railroad corporation has all the States and Territories of the Pacific Coast in its pocket. It can make profitable or bankrupt every person whose productions are bulky, and seek a market at any considerable distance from the point of every description. production. And its policy will increase or decrease our population, just as it is developed. In view of this, it is to be hoped wise counsels will prevail in its management, and the company be content with such profits as will leave its partners—the producers—something for a "rainy day."

The Sunday law was observed the last two Sundays, with one or two exceptions. Farmers in that vicinity report that the outlook for grain and other crops was never better than at present, and they are correspondingly jubilant.

A very pleasant and well attended social was held at the Presbyterian Church on Thursday night and everybody present enjoyed a good time. for a "rainy day."

BUILDING BOOM.

The continuance of the building boom that characterized the close of 1881 and commencement of '82, is one of the gratifying promises of an abundant year to the mechanic and laborer, as well as the farmer. So that he who toils at any of the useful avocations of life will find remunerative employment and prosperity, if he is prudent of his earnings.

The horse was then soon liberated, and Mrs. Truesdell and the child liberated from their perilous position. In the meanthat characterized the close of 1881 and earnings.

"SIXTY" DAYS.

The Spirit of the TIMES says that the people will not stand a political cam-paign of more than "60" days; and the party that cannot make and win a fight party that cannot make and win a fight in that time, could not, in ten times the number of days mentioned. So far as the Republican Party is concerned it does not require any more time. As has been suggested, the Republican Batte Convention should be called to assemble about July 25th; and the absolute work of the campaign should commence about August 7th. In such an arrangement there would be something sensible. In these Railroad and Telegraph times, much ground can be gotten over in a very short space of time; the lightning announces the "Orator." the Iron Horse carries him to the point intended. RESIGNATION.

Among the many gems of poetry that will keep in sweet remembrance the name of Longfellow so long as the English language is spoken, there are non that breathe a purer sentiment and better bespeak the man, than the exquisite poem entitled "Resignation." the hearts of many stricken parents have been comforted when the deathangel has invaded their households, and they have been enabled to see "through the mists and vapors" to the hopeful "life elysian." sured our readers will peruse it afresh this morning, with pleasure.

The Chinese Bill is Still the Topic

at Washington. The Indian Appropriation Bill-Senator Hill' ion — Gas Expi

NEW YORK, March 26.—A Washing, on special has the following: The ton special has the following: friends of the President announce it as nese bill in its present shape, and en-deavor to force Congress to accept the restriction of ten years. In case it should become a law doubts as to its efficacy are already being expressed. Colby, one of the employees of the House who has spent some time in China, called attention to how easy it was for Chinamen to avoid the restriction placed upon their immigration to the United States. He said Hong a British is Colony large numbers of Chines go there and become naturalized. Mongolians wishing to come to this country can go to Hong Kong and be-come British subjects and then come here without violating the prohibitory law, and I understand that

THE SIX COMPANIES Are fully aware of this fact, and have made arrangements with British commies which were previously interested in the coolie trade, to men to Hong Kong, have them naturalized there, and in due season send them in large numbers to us. In addition to this there are also openings for Coolie importations through Mexico and across the American border. The Secretary of the Chinese legation will have an interview with the President early next week, when he will present the views of the government of China on the subject. The Chinese minister at Washington says he has not deter-mined whether, in case the President approves the bill, he will transfer the mbassy to Spain, but thinks he would not. He says that under the bill some 20,000 Chinamen in Central America and Mexico would be forced to remain there because they could not go home without stopping at San Francisco. When it is remembered that and he is understood to be opposed to some features of the bill. The State Department authorities pronounce the bill a violation of the treaty, and it is evident that if their voice is heard the President will veto the bill. The acion of the Executive, however, is

likely to be controlled by qualifying considerations. Statements are made in the press that the railroad lobby was active in the attempts to defeat the Chinese bill, and that the agents of the Six Companies were conspicuous in their efforts in the lobby, and one who es to examine the negative vote on the bill will readily conclude that the accusation that any of those votes were obtained by corrupt influences, must be groundless. THE TOMBSTONE TROUBLES. The Opposing Parties Meet-Curley

TOMBSTONE, March 25 .- The Epi taph this evening publishes the following as being the latest account of the cowboy trouble: The town has been full of reports for the last two or three days as to the whereabouts of the Fari party, and their probable movements. No sooner had one report got well under way before another was started contradicting it. There has been vignolo & Son, the assignee was dismarching and countermarching by the charged, the bondsmen were released and the case dismissed. Sheriff and posse, until the community has become so used to the ring of spur and clash of steel that comparatively little attention was paid to the appearance of large bodies of horsemen in the streets. Yesterday afternoon the Sheriff, with a large force, started down the road toward Conten tion, possibly to follow up the report that the party had been seen in the Whetstone Mountains west of San Pedro river with their horses completely fagged out and was badly demoralized. This, like many other reports, was as baseless as the fabric of a dream. Yesterday afternoon, as the descending low down the western horizon, had a person been traveling on Crystal or Lewis Spring road toward Burleigh Springs, as our

informant was, he could have seen one of the MOST DESPERATE FIGHTS

Between men of the Earp party and fieree cowboys, led by the daring and notorious Curley Bill, that ever took place between opposing forces on Arizona soil. Burleigh Spring is about eight miles south of Tombstone, and some four miles east of Charleston, near the mine of that name, and near a short road from Tombstone to Herord. As our informant, who traveling on horseback leisurely along toward Burleigh, rose a slight ele-vation in the road about a half a mile outh thereof, he observed a party of six men ride down to the Spring from the east, where they all dismounted. They had not much more than got well upon their feet when there rose up at a short distance away nine armed men, who took deadly aim and fired instantly at the Earp party, for such the six men proved to be. Horrified at the sight that like a lightning-stroke flashed upon his vision, he instinctively stopped and watched for what was to follow. Not a man went down under

MURDEROUS FIRE. But like a thunderbolt shot from the Jove, six desperate men charged upon their assailants like the Light Brigade at Balaklava, and, when within easy reach returned the fire, under which one man went down one man went down nevermore to rise again. E. A. ON MASONRY.

Yesterday evening a select audien mbled in the chastely elegant Masonic Hall of this city, in order to listen to a remarkably interesting lecture from the Rev. O. C. Wheeler, Prelate of the Grand Commandery of the State, and Deputy Grand Representative at Large of the Egyptian Masonic Rite of Memphis, the purse relating to Egyptian Masonry.

With a voice of sympathetic eloquence and in well-chosen terms, the reverengentleman showed conclusively that Ma onry antedates, by many thousand years any other institution existing among men and that Jehovah himself was its author and that Jehovah himself was its author; for Masonry is neither original, humanly speaking, nor a servile imitation of the ancient mysteries of the Scythian plains. In the initiatory rites of Isis and Osiris, many centuries before the coming of Christ, were laid, strong and deep, the foundations of what is now the purified ritual of the ancient craft. Not until the scientific research of Champollion, early in the present century, gave to the world the translation of the inscriptions on the celebrated Rosetta stone was the back door of ancient masonry opened. This discovery has enabled us to read the hieroglyphs carven on obelisk, and pyramid, and temple door. And it was the wisdem of the Great Architect himself, which caused these vastly important facts to be caused these vastly important facts to be recorded in a language which, many centuries since, became dead among men

centuries since, became dead among men, and caused that celebrated stone to be hidden until, in the progress of the world, a generation should come upon earth emdowed with culture sufficient to read aright and comprehend the teachings contained in those symbolical characters.

Moses was a Mason and of the highest among the craft. The great journey through the wilderness was conducted according to Masonic rules; the revolt of cording to Masonic rules; the revolt of Korah, Datham, and Abiram was, undoubt-edly, one of rejected applicants for ad-mission to the order, and fearful was the punishment which came upon them from on high. Solomon was not a Mason until his friend, Hiram, King of Tyre, and an-other, made him one. Then, and not till then, was he salle to carry to completion then, was he able to carry to completion the greatest work that has ever engaged the attention of mankind—the building of

In tracing Masonry to its origin he had felt such joy as converts feel; a joy which, he was pleased to know, others felt with him. In accordance with the unanimous request of the craftsmen who had heard him on this occasion, he promised to repeat the lecture at some future day. The Times takes the liberty of angeostic that such a lecture would be of uggesting that such a lecture would be of cendent interest to the public and trusts that Mr. Wheeler want to deliver it, at such time a consent to deliver it, at such time and place as suit his own convenience, to the many whom it would instruct and charm.

SUNFLOWERS.

How a Couple of Fair Damsels Elec trified the Town.

The boom of the lily and the sunflower has reached the sunny clime and orange groves of Los Angeles. Yesterday the first "flood of the tide" was noticed. There will be a surfeit of estheticism henceforth, and if the gentle Oscar comes this way, he will get ridden in a 'oss car out of town, and hit with a stuffed club, out of town, and hit with a stuffed club, or left to mummify on the sand dumes of San Diego. For several days a gorgeous "little bonnet, with a ribbon, and a bit of lace upon it," surmounted with a big flower, was the observed of all observers who looked into the show window on Spring street containing it. This was as the first drop before the storm. Yesterday forenoon, two young ladies appeared upon the streets with their ribbons adorned with a few sunflowers but it was re-

day forenoon, two young lanes appeared ported that mining prospects are very good.

Mr. Dunham has made a change in the personnet of the Pico House dining room; seven colored waiters, late of the Palace Hotel, San Francisco, will now attend to the wants of Mr. Dunham's guests.

Mr. A. T. Dewey, of the Pacific Rural Press, and Mr. Rixford, of the Bulletin, are in Riverside enjoying themselves and the beautiful prospect about that burg Mr. Dewey will remain for a week, perhaps, and Mr. Rixford will return to-day, passing through Los Angeles this evening.

Still Another.

L. Lichtenberger is tearing down his in snatches of the old song, "I'm just as happy as a big sunflower," etc.

Marriage Licenses The following marriage lisenses have been issued from the County Clerk's office the past week: R. M. Hargrave to Nottie C. Lawton, C. E. Groat to Ida M. Fox, F. A. Fister and Annie K. Byrnes, Carlos Ortega and Elvinsa Salcido.
